

## **LAWRENCE SHERIFF SCHOOL RUGBY**

---

### **BEHAVIOUR POLICY**

---

There is only one school rule. All members of the school community are expected and relied on to behave with the courtesy, consideration and common sense which will enhance their own, and the school's, reputation.

If we have to impose a punishment, we will be guided by the following principles:

- The need to provide an appropriate opportunity to learn and to repay the school community.
- We will avoid inconvenience to an innocent party: notice will be given of detentions.
- The student's parents or guardians should be involved wherever appropriate.
- Solutions should be found wherever possible by working with the student inside the school.
- In the event of repeated or serious misconduct, the balance should be finely judged between the needs of the individual and the safe and successful functioning of the community as a whole. At all stages, the school's academic and pastoral discipline routes will be followed.

Entry to the school creates a lasting relationship between the individual and the community which all take very seriously.
